THINK MINISTERS

By Recent Developments.

NOT LIKELY TO BE SLAIN.

The Belief in Washington That Counsels of Southern Viceroy's Have Restrained Those in Power at Pekin.

Washington, July 31.—Doubt has given way to a feeling akin to certainty that the legationers at Pekin and the gallant marines who managed to reach the Chinese capital just in the nick of time, were not only alive on July 22nd, but in all probability are still alive and likely to remain so until they are relieved from their state of

The officials here feel certain that the attack by the Chinese on the legations will not be renewed. They are convinced that the counsels of the viceroys in the great southern and central provinces and the advice of Li Hung Chang have had effect, and that whoever is in power in Pekin, whether Emperor, Empress, Ching, Tuan, or Tung, now has been made to see the necessity for the preservation of the lega-

The officials here, while anxious that the movement on Pekin begin at once, do not attach credence to the rumor mentioned by General Chaffee that the forced march was to begin today. There are two reasons for their incredulity. In the first place, Chaffee's force, his splendid cavalry and his battery of artillery, are exactly what are needed to strengthen a weak spot in the international column. In the second place [and information on this point comes through European channels,] some of the foreign commanders are still of the cpinion that they cannot begin the campaign before the last week in August, at the earliest.

acceded to this view, and is relaxing no effort to bring about a change of plans on this point. But our representations have been met by the almost unanswerable argument that the decision of this important question properly should be left to the military commanders on the spot, who must bear the responsibility for the outcome of the expedition.

A rather startling proposition was advanced today which, if adopted, might put at once to the test the Chinese profession that the Boxers, and not the Chinese government, are responsible for what has happened in Pekin. This was to the effect that the Cninese government should be informed that the international force was graphing yesterday, says: "A new imprepared to take the government at its perial edict, promulgated this evening, word and to join forces with it in crushing urgently orders all Viceroy's and provinout the insurrection.
